

# Engine oil Doris Superol CC-30

## Engine oil Doris Superol CC-30

Produced based on deeply refined mineral oils, this oil boasts a meticulously selected package of refining additives, ensuring excellent anti-wear, anti-foaming, and anti-corrosive properties. The product is designed for lubricating various types of diesel engines – both naturally aspirated and slightly turbocharged – operating under moderate to high thermal and mechanical loads.

### Oil properties:

- resistant to oxidation,
- protects against corrosion,
- excellent anti-foaming, anti-corrosive, and anti-wear properties,
- facilitates engine starting in winter,
- provides proper lubrication parameters over a wide temperature range.
