

Engine oil Doris LUX 10

Engine oil Doris LUX

Seasonal summer engine oil LUX 10 containing selectively refined, dewaxed, solvent-extracted, and hydrotreated oil distillates obtained from crude oil. Provides good lubrication for four-stroke and two-stroke engines. LUX 10 oil is mainly designed for the lubrication of internal combustion engines and other devices where the use of oil with manufacturer specifications is not required.

Oil properties:

- provides good lubrication for four-stroke and two-stroke engines,
- used for lubricating internal combustion engines and devices that do not require the use of oil according to the manufacturer's specifications,
- ensures proper lubrication,
- has resistance to high temperatures.

Engine oil MIXOIL

High-quality, low-smoke MIXOIL S engine oil from DORIS

It's intended for vehicles with two-stroke engines cooled by air or water. MIXOIL S oil is produced based on deeply refined mineral oil and a solvent of petroleum origin, enriched with a carefully selected set of refining additives.

Oil properties:

- reduces fuel consumption,
- lubricates injectors,
- quiets the engine,
- reduces smoke emission.
