

# **Gear oil ATF II D Dexron 2**

## **Gear oil Doris ATF II D**

Doris ATF II D is a high-quality fluid designed for use in automatic transmissions requiring fluids that meet GM Dexron IID classification. It is also used in some manual car transmissions, power steering systems, and hydraulic systems.

### **The properties of the oil:**

- Prevents the formation of lacquers, sludge, and deposits, allowing the gearbox interior to remain clean
- Extends the lifespan of the gearbox
- Reduces wear on transmission components during startup
- Facilitates equipment startup
- Ensures smooth and trouble-free gear changes
- Minimizes the risk of leaks and system contamination
